THANK YOU

Hi, I’m Vaibhav.

Video Editor & Technologist

I am a B.Tech IT undergraduate at USICT, GGSIPU, and a passionate video editor committed to the craft of visual storytelling. I love the challenge of turning scattered ideas into polished, professional videos that capture attention. blending technical expertise with creative intuition, I ensure that every project I touch is not only visually stunning but also technically flawless. Let’s turn your vision into reality.

INTRODUCTION

VAIBHAV SINGLA

About Me

What started as a lockdown hobby has grown into a serious career path. From being recognized as a top videographer in school to winning the Best SIP Video Editor award at USICT, I have always let my work speak for itself. currently, I drive the visual identity for the ACM, IEEE, and TechSpace chapters, turning campus moments into lasting digital memories.

THE ORIGIN

BBPS, Pitampura (2011-25)

From the basketball court to the center stage, my decade at Bal Bharati was defined by high-impact versatility. Whether leading 500+ peers as Deputy Head Boy, earning the title of 'Best Basketball Player,' or clinching top honors in Bharatnatyam, I channeled discipline into every passion. But my legacy extends behind the lens as the school's ace video editor. ***Today, that trust remains unbroken; I still return as a mentor to guide juniors in everything from sports and dance to managing flagship events and video edits.*** I don't just play the game; I create the highlight reel.
